

# LINSEED SOAP

Lubricating Grease

## LUBRICANT

**Linseed Soap** is a lubricating grease made from a mixture of linseed oil, fatty soaps and surfactants. It is a semi-solid paste, brown in color.

**Linseed Soap** can be swabbed inside inner tubes, added to drill fluid through a suction hose applicator or flushed into holding tanks with a water spray. Immediate results will occur by increased core recovery and increased bit footage.

## FEATURES & BENEFITS

- Phosphate free and biodegradable.
- Rinses easily from samples.
- Minimize wear on the inner tube.
- Lubricates the core lifter.
- Facilitates the core sliding into the inner tube.

## PHYSICAL PROPERTIES:

Appearance: Brown liquid

Boiling Point: 100°C

## CHEMICAL PROPERTIES:

Solubility: Insoluble

pH: 9.5-11.5

## MIXING & HANDLING

Avoid contact with strong oxidizers. Safety glasses with side-shields are recommended. Wear clothing adequate to protect against exposure.

Ensure eye-wash station and emergency shower are available. Wash thoroughly after handling. Avoid contact with eyes, skin or clothing.

WHMIS: Not controlled

TDG: Not regulated

Packaging: 17kg pail
